General instructions

We thank you for choosing us and trusting us to help you to perform your Hajj. We ask God to accept it from us and from you and to make it easy and perfectly for all of us.

Firstly, we would like to remind you, our pilgrims brothers and sisters , that (Hajj is a jihad without a thorn) as it mentioned in the noble hadith of our Prophet Muhammad, may God bless him and peace be upon him. We and you are in blessed company in which we will be keen to serve you to the fullest. Things may surprise us that are beyond our control, such as a electriciy and water shortage, or preventing vehicles from entering, or changing the departure times. Therefore, all of us ,our pilgrims ,have to endure some hardship and be patient with what may happen during Hajj.

- The pilgrim must print the permit from Absher to present it to government agencies with proof.
- Out of concern the security and safety of you , no one will be allowed to enter the camp unless they show the Hajj card given to them.
- Pilgrims who use special medications and treatments must bring them along with a medical report so that the doctor of the company can be aware of the pilgrim's condition and maintain it and do not leave medicines or any other items on the bus due to the difficulty of the accessing to them.
- Do not take any valuable items during Hajj.
- Accommodation in Mina camp is with a number of pilgrims
- The air conditioning in the Mina camp is central and can not be controlled, so we must all take that into account and take the necessary precautions.
- It is not allowed to bring children inside the company.
- Based on the directions of the official authorities, we must adhere to the company's transportation schedule in order to avoid crowding and loss.
